

SRCA ARCHITECTURAL APPLICATION CHECKLIST

Exterior Art/Fountains/Statues/Fireplaces/Benches

Such items, when visible from neighboring properties, common areas, or items placed in public view, require review and approval prior to installation or construction. Committee review will include appropriateness to size, total number of items displayed and compatibility with the architectural style of the home. Review will be on a case-by-case basis.

This checklist is for guidance ONLY-please refer to the SRCA Architectural Guidelines for the specific requirements relating to your project. You may require additional checklists, dependent upon the type of project proposed. Please contact our Architectural Liaison for additional information.

Please submit the following, in addition to your SRCA Architectural Application for SRCA review:

- Full color house photo showing exact location, from as far back as possible.
- Plans with measurements (length, width, height & depth) showing existing property lines to include sidewalk.
- Picture of structure.
- Material, dimensions and color sample.
- Information, including spec sheet and location on any required mechanical equipment, if applicable.
- Setback information from all walls for all fireplaces/fire pits.
