

## SRCA ARCHITECTURAL APPLICATION CHECKLIST

### Play Structures/Trampolines/Basketball Hoops

All play structures, including playhouses, swing sets, trampolines and basketball hoops require disclosure neighboring properties prior to review and approval. Please allow sufficient time for review.

**This checklist is for guidance ONLY-please refer to the SRCA Architectural Guidelines for the specific requirements relating to your project. You may require additional checklists, dependent upon the type of project proposed. Please contact our Architectural Liaison for additional information.**

**Please submit the following, in addition to your SRCA Architectural Application for SRCA review:**

- Aerial picture of the house.
- Photo of proposed location (as far back as possible).
- Exact product detail (color, material, size to include length and height, etc.)
- Awning(s) detail to include material and color for play structures.
- Detailed information about any platform structures to include height off the ground.
- Measurements from all existing property lines/walls.
