

SRCA ARCHITECTURAL APPLICATION CHECKLIST

Security Doors/Screens

Installation of all security doors or screens, in the front, sides or the rear of the home require review and approval prior to installation. Dependent upon the type of installation and design, review and approval may be allowed on a staff level.

This checklist is for guidance ONLY-please refer to the SRCA Architectural Guidelines for the specific requirements relating to your project. You may require additional checklists, dependent upon the type of project proposed. Please contact our Architectural Liaison for additional information.

Please submit the following, in addition to your SRCA Architectural Application for SRCA review:

- Photo of existing doors/screens
- Photo of the front of the home, from as far back as possible.
- Exact style, color, material and hardware description. Please provide plans, including dimensions for custom designs.
