

SRCA ARCHITECTURAL APPLICATION CHECKLIST

Solar Panels

Installation any solar powered products, including, but not limited to PV solar panels and solar water heaters, requires Architectural Committee review and approval prior to installation. Please allow sufficient time for disclosure to neighboring properties.

This checklist is for guidance ONLY-please refer to the SRCA Architectural Guidelines for the specific requirements relating to your project. You may require additional checklists, dependent upon the type of project proposed. Please contact our Architectural Liaison for additional information.

Please submit the following, in addition to your SRCA Architectural Application for SRCA review:

- ALL SOLAR APPLICATIONS REQUIRE ARCHITECTURAL COMMITTEE APPROVAL. Please allow sufficient time for disclosure to neighboring properties and Committee review.
- Aerial picture of the house.
- Picture of house, street view where solar panels will be placed (as seen from across the street).
- Elevation Drawings.
- Locations, number of panels & color of the solar panels to include trim.
- Location of any equipment such as conduit.
- Product information sheets.
- Information regarding the type of roof panels to be installed on, including, but not limited to the parapet height.
