

SRCA ARCHITECTURAL APPLICATION CHECKLIST

Windows

All window replacements require review and approval prior to installation. No custom colors will be allowed. Allowable colors include white, almond, tan and bronze. Please check with our Architectural Liaison regarding any restrictions on window types and/or colors by subdivision.

This checklist is for guidance ONLY-please refer to the SRCA Architectural Guidelines for the specific requirements relating to your project. You may require additional checklists, dependent upon the type of project proposed. Please contact our Architectural Liaison for additional information.

Please submit the following, in addition to your SRCA Architectural Application for SRCA review:

- Color photo of entire house (as seen from across the street).
- Photos of existing windows to be replaced.
- Pictures of proposed windows with frame material and color sample, including fin size for pop-in windows.
- Exact measurements and photos of any window(s) and/or doors that will change from existing size or location. ***Any change in size requires Committee approval. Please allow additional time for review.***
- Details regarding grid or non-grid.
- Intentions for all existent sliding glass doors.
- Full or partial replacement. ***All partial replacements require Committee approval. Please allow additional time for review.***
