SRCA ARCHITECTURAL APPLICATION CHECKLIST

Security Doors/Screens

Please be sure your project meets any guidelines before submitting for approval.

Installation of all security doors or screens, in the front, sides or the rear of the home require review and approval prior to installation. Dependent upon the type of installation and design, review and approval may be allowed on a staff level.   Please allow sufficient time for review.

This checklist is for guidance ONLY-please refer to the SRCA Architectural Guidelines for the specific requirements relating to your project. You may require additional checklists, dependent upon the type of project proposed. Please see plan my project at www.scottsdaleranch.org for more information, full guidelines and applicable architectural rules.

> **In order to create and maintain harmony and consistency within a property, when choosing materials and finishes (for walls, fences, gates, landscaping, driveways, walkways, and hardscape elements), having a large number of different materials, textures, or designs is to be avoided. The Architectural Committee reserves the right to deny applications which would result in too many different materials, textures, or designs being visible.**

Please submit the following, in addition to your completed and signed SRCA Architectural Application for SRCA review:

o   A current color photo of entire house as seen from across the street as required with all submittals.
o   Photo of existing doors/screens.
o   A completed architectural application to include exact style, color, material, and hardware description. Please provide plans or CAD drawings including dimensions for custom designs.
o   If you live in a sub association, please check with your management to find out their restrictions for color and designs.

If you have any questions, please contact Diane Botica the Architectural Liaison at 480-860-2022 or dbotica@scottsdaleranch.org.
